

Glass Disposal Container

This container is for non-infectious glass only. All glassware must meet the definition of empty as found in the University Lab Safety Manual. This container is for both broken and unbroken glass.

NO SHARPS

Sharps CANNOT go into the glass disposal container. The following items are regulated as sharps:

- Needles
- Razor blades
- Glassware contaminated with potentially infectious materials
- Syringes with attached needles
- Scalpel blades

Place all sharps into EHS provided sharps containers. For information on sharps containers call 471-3511.

Instructions for Using Glass Disposal Container:

- Complete container I.D. label (see below).
- Fill container with unwanted non-infectious glass that is free of any liquids. Do not over fill.
- When container is full, tape plastic bag closed, and cover with the lid provided. Lid must fully close.
- Place container in hallway for custodial pick-up after 5:00 p.m.
- If additional containers are needed check appropriate box on container I.D. label, and indicate the number of containers needed.

Container I.D.	
Building: _____	Room number: _____
Lab contact: _____	Phone: _____
Need additional glass container: <input type="checkbox"/> Yes <input type="checkbox"/> No	Number of containers needed: _____

Place all glass containers, 2 liter or larger, next to the container to conserve space, and follow the instructions below.

- Bottles must be unbroken and completely free of any liquids.
- Lids and caps must be removed.
- An EMPTY label must be placed on the glass bottle.

Container will be picked up if:

- I.D. label has been completed.
 - Plastic bag is taped and lid is properly placed.
 - There are no signs of liquid on the container.
 - It is placed in the hallway.
-
-

This container was not picked up because:

_____ Container I.D. label is not correctly completed.

_____ Container is over filled.

_____ Container is not closed properly.

_____ Container is wet or otherwise damaged.
